TEORÍA

Actividad uno:

Read. Make a list of the expressions José and Kelly used to say if they have a skill and ability or not.

José Gómez

I'm not very good at studying. In fact, I was so tired of studying after high school that I wanted to take a rest. Then, I started working here and there, but I never did any courses. Now, I can see that I'm able to do a lot of things even if I haven't done any technical courses.

I don't have a diploma, but I'm honest and I know how to work in teams, solve problems and find solutions. You can always be sure I will come to work every day. I won't arrive late or leave early and I'm able to learn really fast.

Kelly Sánchez

My strengths? Well, I know a lot about HR, I'm a great leader and I can work under pressure. I'm good at planning and organising events for employees and I'm very skilled at solving problems fast and efficiently.

To tell you the truth, I'm not very good at working with computers.

Actividad dos: Read. Which careers should they do? Choose from the list below.

- English teacher
- nurse
- secretary
- engineer
- policeman
- doctor

Roberto

I think my strengths are that I can work well in a team, but I can also work well on my own. I'll have to think about these strengths when I choose a career. I can't see myself in an office all day long, doing lots of paperwork. I enjoy helping people so I want a career where I can have lots of contact with people and can make a difference.

Maria

I'm sure my strengths will help me to decide what to study at university. I'm good at Maths, I'm quite creative and I also like making decisions. I think that my English is also very good. I can use that strength for my career because you need English in business to talk to people in meetings or even send letters and emails. My weak subjects at school are subjects like Science so I wouldn't want to study anything like Chemistry.
