A Sloth Who Lives in a House

I'm a sloth living in a human house. I've **been** in this house for about six months now and it's **been** extremely difficult for me. I **can't** remember how I got here. It's true that the humans in this house seem to enjoy my presence, but I miss my home, the forest, very much. When I'm there, I **can** hang from the trees for hours and hours. I **can** even change trees when I want to – not that I change trees often, but I have the option. Here there isn't anything to hang from. In the forest, I **can** always find leaves to eat; here they give me things I don't like very much. They **shouldn't** do that because it makes me ill. At home, I enjoy hanging out with my friends. We don't do much, but it's fun. Here, these little humans think I **can** play their games. They don't know it's difficult for me to move around like that. I **can't** continue living here any longer – I **must** go home! I **have thought** about how to escape. What **should** I do?

Actividad tres:
